About

An enthusiastic and hard-working individual. Passionate about coding and adapting new skills and utilizing it efficiently. A good team worker and proficient in executing goal-oriented projects. Strongly interested in working as a software developer to enhance his skills and gain experience.

Projects

THE BODY SHOP (Clone)

A website that specializes in beauty products, where no animals are being harmed.

Features:

- Product pages
- Dynamic checkout page
- Modals
- Cart section

Areas of Responsibility:

- Built a landing page with some functionalities only with frontend.
- Built an on-click carousel function.
- Developed header and footer for the total website.

A collaborative project built by a team of 6 executed in 4 days.

THE PAULA'S CHOICE (Clone)

A website basically based on skincare type products for all.

Features:

- Product sorting/filtering
- Promo code
- Customer reviews/comments
- User authentication

Areas of Responsibility:

- Built an authentication system using localStorage.
- Created modals.
- Developed header with dropdown function and footer.
- Developed the home, about and covid pages.

A collaborative project built by a team of 6 executed in 5 days.
